

CORRECTEK BUSINESS INTELLIGENCE (CBI) DASHBOARD

Scheduled Release - Q1 2025

Unlock Key Insights with the CBI Dashboard

The CBI Dashboard, available in Q1 2025, integrates CorrecTek Spark with Microsoft Power BI to deliver advanced healthcare analytics. Choose from three tiers to match your operational needs and gain actionable insights from your data.

Instant Access Anywhere

Access insights from any device with Microsoft Power BI—no login to CorrecTek Spark needed.

Interactive Analytics

Dive deeper into your data to analyze key metrics and uncover trends (Advanced Tier and above).

Track & Optimize Compliance

Monitor clinical trends and ensure alignment with NCCHC, ACA, and internal standards.

Customize To Your Needs

Request modifications or entirely new dashboards with the flexibility of the Premium Tier.

Unleash the Power of Data with the CBI Dashboard

Basic Tier 1

Provides a set of preconfigured dashboards offering a high-level view of key metrics. Simple filters, like time-period comparisons, allow for basic insights.

Ideal for foundational monitoring.

\$500
monthly

Advanced Tier 2

Basic Tier
+
Added interactivity to explore metrics, identify trends, and uncover insights.

Perfect for organizations seeking deeper data analysis.

\$1,000
monthly

Premium Tier 3

Advanced Tier
+
Request modifications to existing dashboards or entirely new dashboards at no extra cost.

A comprehensive solution for those requiring tailored analytics.

\$1,500
monthly

Subscription Service Terms:

- Data Refresh: Healthcare data updated at regular intervals (e.g. hourly, daily, weekly, monthly).
- Microsoft Power BI Licensing: Not included; customers must procure licensing independently.
- Data Access Control: Customers are solely responsible for managing access to dashboards and ensuring sensitive data is viewed only by authorized personnel.
